

THE CHRONICLE

VOL. XIII. No. 24.

CROSSFIELD, ALBERTA, THURSDAY, JULY 15th 1920.

PRICE \$1.50 A YEAR.

WM. LAUT

LOOK for the PROOF !

Don't Get Wise When it is Too Late.

Every farmer knows how important it is to be able to get necessary repairs or expert assistance for farm machinery, especially in haying and harvest time.

Every dealer claims he can give it.

WE INVITE INSPECTION of our repair room. Our new stock of Extras for Mowers, Rakes and Binders has arrived and is stowed away in accessible, numbered bins where you can get it quick. We have a larger stock than ever and can give you better service—make us prove it.

Keep this in mind too when you buy New Machinery

William Laut,

Groceries, Hardware, Implements, Harness.

FARMERS' SALES NOTES

Farmers with Sales Notes will be well advised to turn them over to this Bank for collection.

The Bank will relieve you of all trouble in making presentation, and payments will be credited to your account promptly.

Sales Notes supplied without charge.

THE CANADIAN BANK OF COMMERCE

PAID-UP CAPITAL \$15,000,000
RESERVE FUND \$15,000,000
CROSSFIELD BRANCH, F. L. Watters, Manager.

LUMBER

After the 1st of July we will be in a position to fill your Lumber orders **OUR PRICES** are so reasonable that you can afford to haul your Lumber a long distance and save money.

Drive in and take a load home from the Mill and see for yourself.

The Silver Creek Lumber Co.,
CREMONA, Alta.

Mill on Sec. 5-30-6-5.

VALIQUETTE & DINGLE

BARRISTERS AND SOLICITORS
Calgary Office: 810A First Street West.
Phone 41467.

Mr. Valiquette at Crossfield every Saturday.
During July and August by appointment only.

: Local and General :

Misses Mae Ruddy and Marie Ontkes arrived back in town the fore part of the week, after spending a few days vacation at Banff.

Mr. C. Casey and C. Fox were visitors to Banff over the past week end.

Dr. D. W. Whilans left town this morning (Thursday) for a two weeks visit to the coast.

It will be up to Manager Skinner to turn out a full strength line-up to back up his challenge to Calgary. We'll pass up Wednesday's game with Airdrie, no comments.

Secretary McRory moved into the new Municipal office on Wednesday.

Quite a number of Crossfieldites made the trip to Airdrie on Wednesday for the purpose of taking in the sports. All report having had a good time.

The Trail Rangers are looking forward to their visit to Inis Lake (West of Olds) where they go in Camp for a week accompanied by Rev. R. K. Swenerton.

CHURCH OF THE ASCENSION.
7th Sunday after Trinity, July 18.
10 a. m. Sunday School.
11 a. m. Morning Prayer, Litany and Sermon by Mr. Fred Neve, Diocesan Lay Reader.

UNION CHURCH, CROSSFIELD
Sunday, July 18.
Rev. R. K. Swenerton, B.A., B.D., Pastor.

Mr. S. Willis, Musical Director.
Mrs. M. Thomas, Organist.
Mr. D. A. Jeffery, Sunday School Superintendent.

Sunday School & Bible Class 2 p. m.
Preaching Service at 7.30 p. m.
Services next Sunday will be conducted by the Pastor at 11 a. m. followed by Sunday School. Elth 3 p. m. Crossfield 7.30.

The Crossfield Chautauqua is due a week from next Monday. We do not see any advertising matter in the stores yet. It is understood that the U. F. A. locals are going to handle the Chautauqua this year. Is this so or not? The time is short, there is much to be done. What about the sale of tickets? Is Crossfield Chautauqua to be a success or a failure? What is going to be done will have to be done quick.

On Tuesday, Mr. F. Pullan took a trip out west with a load of camping utensils and tent, these were for the use of the (Pathfinders) a number of Crossfield girls who are spending a week under canvas in an ideal spot at Dog Pound. Rev. R. K. Swenerton, Messrs A. C. McLees, J. L. McRory and Melvin Reid each with a car load of girls left town on Wednesday morning with Mrs. A. C. McLees and Mrs. F. Pullan as attendants. Here's hoping they have a real good time.

Mrs. W. McRory, who has been spending a holiday with her daughter Mrs. Young of Macleod, returned home on Wednesday accompanied by two of her grandchildren, Miss Mabel and Olive Young.

Coal, and More Coal

The Coal Commissioners advise us to get all the coal we possibly can, as it will be impossible to get it this winter when we must have it. We are taking his advice and filling our sheds, and we would advise you to do the same.

Take a load home with you each day.

Go in with your neighbour and let us give you a Car Load Price.

DON'T DELAY

MAGIC BAKING POWDER
Contains no alum

We unhesitatingly recommend Magic Baking Powder as being the best and purest baking powder possible to produce. It possesses elements of food that have to do the building up of brain and nerve matter and is absolutely free from alum or other injurious substitutes.

Our Duty to Canada

In this column last week, using the celebration of Dominion Day as a text, reference was made to the bright, even glorious, future before this country, provided the Canadian people, profiting by the lessons and experience of the past, threw themselves with sincerity and downright honesty of purpose and vigorous effort into the inspiring task of cultivating a true national spirit based on a Christian tolerance, a broad sympathy, and a real desire to understand one another, coupled with an enlightened and progressive policy of development of the Dominion's great wealth of natural resources.

The more one studies Canada's position among the nations today in the light of the world's requirements of those things which Canada can supply, the more does one become enthusiastically optimistic over this country's future. The realization of true national greatness however, rests with the people themselves, rather than in the extent of our fertile fields, the hidden wealth of our mines, the great stretches of our forests, or the treeming millions of fish in our lakes, rivers and along our sea coasts. These are but the means, the tools ready to hand. Their development for use depends upon the character, the intelligence, the energy of the Canadian people.

In turn, the standard of Canadian manhood and womanhood depends upon the moral character of our people, individually and collectively; upon their educational training and attainments; upon their physical fitness, strength and general well-being from the standpoint of health; in a word, upon their conception of what life really is, and what things are worth while, pointing the way to something better and greater.

Not to moralize at too great length, the question may well be asked: Has the average Canadian seriously questioned himself as to his personal duty and responsibility to Canada? Or is the average Canadian so busy looking out for Number One that he gives little thought to what he owes to his country and fellow citizens?

These thoughts are suggested by a brief news item appearing recently in the daily press reporting the con-

viction of a prominent physician in Ontario for attempting to evade the Federal Income Tax. This man, in receipt of an average income of \$11,000 a year for the past three years, made returns to the government indicating an income of less than 25 percent of the sum actually received. This man, no doubt, would never dream of burglarizing his neighbor's house, or cheating his friends, nevertheless he sought to rob his fellow citizens by attempting to defraud the treasury of Canada.

This man lacked the national spirit which will make Canada strong and great. He apparently thought it was all right to cheat the government, which is merely another way of saying, cheating Canada. And the thought obscures itself: Are there not many more people who through complete evasion of the Income Tax, or the making of incomplete returns, or by smuggling, and in various other ways, defraud Canada who would hesitate to steal a five-cent piece from a neighbor?

It may be that, as individuals, we disappear of customs tariffs, income and luxury taxes, and other methods through which the national revenue is raised, and it is our legitimate right to agitate and educate for reforms in taxation, but so long as the methods in vogue are the law of the land, it is the duty of every loyal citizen to abide by and observe those laws. It is just as dishonest to rob the public treasury as it is to rob a bank or a store.

Refusal to obey the laws of the land, no matter how unpopular they may be, or how much opposed to them any individual citizen may be, is evidence of a lack of that national spirit through which alone can any country be elevated to a high plane. The citizen who himself seeks to dodge his national obligations has no just cause for complaint against the dishonest member of parliament or government official, nor should he object to the profiteering acts of others, when he is attempting to profiteer himself at the expense of his country, that is, at the expense of his friends, neighbors and all fellow citizens. His crime is only different in degree, not in principle.

Until the individual conscience is aroused, the national conscience must remain asleep and the national spirit dead. No government and no country can be better than the people from which a government springs and who themselves are the country. If national honesty is at a low ebb, our national resources will be made the plaything of exploiters and modern buccaners out for personal gain, rather than for development for the use of the people and the enrichment and glory of the nation.

Much is said about this reform and that reform to promote Canada's welfare and progress, but the basic reform, from which alone these reforms develop, calling for individual consideration, is our attitude of mind towards Canada itself.

Coal in Africa

Geologists have found that Africa contains less coal than any other continent and that of the 57,000,000,000 tons estimated to exist there the Union of South Africa has about 97 percent.

Some of the earliest locomotive engines were designed as traction engines for hauling loads over common roads.

Wonderful Remedy Establishes Regularity, Cures Constipation

As you value life itself, never use medicine that racks the system. "Costiveness" is bad enough, but violent cathartics are the limit.

When the bowels are constipated and you have stomach trouble and headache, try Dr. Hamilton's Pills; they are so mild you can scarcely feel their action, so effective that the entire secretory apparatus is stimulated to healthy action. Dr. Hamilton's Pills move the bowels gently.

They tone the liver and kidneys. They renew the blood. Digestion is assisted. Headaches disappear. Stomach rumblings cease. Biliousness is prevented. Dr. Hamilton's Pills are more than a bowel medicine, for they act as a system cleanser and general tonic. For those who feel dull, heavy, and morose, for those who suffer frequently from colds, biliousness and stomach disorders, there is no better medicine.

You risk nothing in using Dr. Hamilton's Pills because they are guaranteed to cure.

Made according to the formula of one of the greatest physicians that ever lived, Dr. Hamilton's Pills are bound to give you relief. Just the aid it requires. Sold by all dealers, 25c per box.

One Advantage

"Why do you feed every tramp who comes along? They never do any work for you."

"No," said his wife, "but it is quite a satisfaction to see a man eat a meal without finding fault with the cooking." Philadelphia Watchman-Examiner.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaint of the season, which is cholera infantum, colic diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothering men as the weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25c a box from The Dr. Williams Medicine Co., Brockville, Ont.

Placing a Ladder

Just when is a ladder safe, both for the man working on it and for the people walking under or near it? Safety News has worked out a diagram indicating that the angle of 75 degrees offers the maximum of safety. An easy way to secure this angle is to find the length of the ladder, and then place the ladder feet one-fourth that distance away from the vertical surface it leans against. This angle prevents undue strain or slipping, and yet gives the workman at the top of the ladder sufficient foot-room.

Thought It Was Suicide

A prominent merchant was discovered a few days ago brandishing a razor at midnight. His wife called for assistance, but found her hubby was only paring his corns. If better not to risk blood poisoning—use Putnam's Corn Extractor, 25c, at all dealers.

Young man.—What did you pay when he heard I had kissed your sister?

Little Girl.—He said that was encouraging.—Boston Transcript.

New wheats have been developed in Eastern England, giving a yield of 77 bushels to the acre.

The Greeks and Romans used wet table books and continued to use them long after papyrus was known.

The Mississippi River is 12 feet wide and 15 to 18 inches deep at its source, the outlet of Lake Itasca.

Minard's Liniment Relieves Diphtheria

Canada's Universities

Sir Arthur Shipley Praises Training Provided in Canada

When we are so dissatisfied with our general educational system in this country, it is a reason for some measure of gratification to observe our more advanced system lauded by educationalists of the Mother Country. The Royal Colonial Institute in London was informed at a recent meeting by Sir Arthur Shipley that Canada was better off in the matter of universities than Great Britain. He pointed out that this country has more universities than there are in all Great Britain. He gave high praise to the thorough training provided in Canadian universities. Training in medicine "abreast of the best on the European continent," Sir Arthur said, was given in McGill and Toronto Universities. In veterinary science, too, Canada was in some ways in advance of the Old Country. In law, applied science and dentistry, our universities served the country well. An important thing was that university education cost less in Canada than in Britain—Ottawa Journal.

Almost 2,000,000 barrels of oil are lost annually through the burning of wells.

HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva P. Yateman, Krugersdorf, Ont., writes:—"I feel that I must write and tell you of the benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was seized terribly with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not go. I was told to take such terrible pills wherever I was, that it was not safe to leave me alone at night. I decided to try the kindred ailments it has curative qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand."

Forty-two daily newspapers are published in London.

Warts are unsightly blemishes, and corns are painful growths. Holloway's Corn Cure will remove them.

Recent tests have shown that seeds will germinate better under blue glass screens than in any other way.

Writing up the Wedding

As the society editor might write it—but won't! "The bridegroom, who was dressed in a rich creation of black, unfinished worsted, tastefully shaped in cutaway form, with a V-shaped neck to show the spotless linen of the collar, the pique of shirt, the undoubted elegance of cravat and the foamy cream of vest, also wore a beautiful shade of grey trousers and well-fitting black shoes. He carried a hat of carefully ironed black silk, and was marked by a general air of apprehension. The bride was gowned in conventional white, carried flowers and wore a veil."

Minard's Liniment Relieves Colds, etc

Armies and Typewriters
As one of the results of war, it is found that 35,255 typewriting machines are required to operate successfully a force of 500,000 men, according to the American military system.

No snake, frog, toad or lizard has ever been seen living wild in Newfoundland.

Forty-four percent of the world's doctors are said to die of heart disease.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and it not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by the best worm remedy that can be got, Miller's Worm Powders, which are sure death to worms in any shape.

BOOK ON DOG DISEASES
A book on dog diseases. It is a book on dog diseases. It is a book on dog diseases.

Great Waste

In a single year unscientific loading, accidental damage and the tremendous cost of packing add more than \$700,000,000 to the cost of food, clothing and other necessities. Un-used space in freight cars costs \$200,000,000 and hauling half-empty cars more than 6,000,000,000 miles costs the railways \$157,000,000; damage and theft cost \$100,000,000, and lumber that is wasted after being used once in packing cases costs \$240,000,000. It is estimated that from a tenth to a quarter of the cost of foodstuffs goes to pay for crates that are thrown away instead of being used a second time.—Youth's Companion.

Internally and Externally it is good. The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pneumonia, colds, and many kindred ailments it has curative qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

Forty-two daily newspapers are published in London.

Warts are unsightly blemishes, and corns are painful growths. Holloway's Corn Cure will remove them.

Recent tests have shown that seeds will germinate better under blue glass screens than in any other way.

AutoStrop Razor
—sharpen itself

All safety razors seem alike because of the similarity in size and appearance. As regards the AutoStrop Razor, however, the resemblance ends there. Its peculiar and additional advantage is that, without being larger than any other safety razor, it combines within itself a self-sharpening feature that enables the user to keep the blade sharp without taking anything apart. It thus prevents the danger and the expense of buying new ones.

You may not be interested in economy of blades, but surely you want a good shave and that is only possible with a stroped blade.

Any dealer will demonstrate the AutoStrop Razor to you, guarantee satisfaction, or refund of purchase price.

Only \$3.00 complete with strop and twelve blades in an attractive assortment of cases to suit any purpose.

Clogged Nostrils Open Breathing Made Easy, Catarrh Cured

New Method Very Successful

It is a new method of treatment, that of medicated air, and cannot fail to be beneficial. It goes wherever air can go, thus reaching all the affected parts. It purifies as by fire, simply burning up the disease germs. Catarrh is a non-poisonous and healing agent; it therefore acts upon the mucous tissues of the throat, nasal passages, and bronchial tubes, destroying all microbe life, and at the same time heals up all the inflamed parts.

As a cure for Catarrh, Bronchitis, Asthma, La Grippe; as a strengthening for the throat, Catarrhosis cannot be equalled.

It is a guaranteed cure, and is highly endorsed by prominent physicians who use Catarrhosis in their practice.

Sufficient Catarrhosis for two months' use, price \$1.00 smaller size 50c; at all dealers.

Love of The Wild

— BY —
ARCHIE P. McKISHNIE

Printed by Special Arrangements with Thos. Allen,
Toronto, Ont.

(Continued.)

Far over the pines of the Point another dark bunch would grow into space, and, turning, they gleamed white upon the watcher's sight. These were blue-bills, hardiest of all the wild-ducks. They were tired and unafraid and ready to make friends with any water-fowl, whether they were of their own kind or a flock of despised coot. Great flocks of peerless canvas-backs, their wings dipping in unison, their white backs gleaming in the morning light, would grow up and fade and grow to life again. They would sweep around and around the bay, craning their long necks suspiciously, settling ever lower, and passing many a flock of dazzling ruddy ducks, that were resting, having fed long before the dawn of day.

Boy would watch these wild, free things with all the joy of a wild sympathy with them. As far as the eye could reach were ducks and beyond the bay was the wild Point, and above all the wild sky with angry darts of light like ragged knives, slashing its breast here and there.

Naturally Boy resented the advance of anything tending to destroy the pictures of his world.

A big man from civilization, who owned the strip of timber across the creek, had built a mill thereon, and all day long now, that mill sang its song of derision and the swaths in the wood were growing wider. It was his own timber the man was cutting—nobody could gainst that fact, but he was destroying, each day, the creek, that silver thread that had been for so long a home for duck and mink and water-rat. He was destroying beauty and crippling the usefulness of the best trapping and fishing ground of the Bushwhackers. A discord had been set vibrating throughout that wooded fastness. The sibilant song of Hallibur's mill was driving the war-wearing animals to seek more secluded haunts. The wood-ducks that had nested close in along the wooded shores, drifted far across to another creek, and the black ducks did not flock so lazily along the marsh throughout the breeding season now, but high in the air and remote from the noise and smoke and jar that was a new and fearful thing to them.

Boy McTavish hated that mill; and that schoolhouse of white boards clinging to the hill he hated, too. He hated was a strange element with him. It sickened his soul, crushed him, and robbed him of all his old-

time restfulness of spirit. The discord could not pass him by.

CHAPTER V.

Even in this golden, hazy dawn it was with him, as he stood gazing across the creek. The crimson sun warmed his cheeks and the heavy scent of over-ripe woods-plants stole to his senses like a soothing balm. But that scar upon which eyes rested had reached his inmost soul, and for him the old gladness of sweet, dewy mornings must hereafter be tempered with a new and strange bitterness.

From the tall smokestack of Hallibur's mill a thin wreath of smoke ascending cut a spiral figure against the fleecy clouds.

Boy turned and walked up the path with his head bowed and his hands deep in his pockets. Behind him trailed the setter, looking neither to the right nor the left. His moods were always suited to his master's. For some reason Boy was sad. Therefore, Joe was sad.

When the path forked Boy turned, and catching sight of the dog's wistful face, he threw back his head and laughed. Then he turned, and bending caught the setter about the neck with strong arms.

"Joe," he whispered, "you're an old fool."

The dog submitted to the caress gravely and sat down, looking up into his master's face with deep sympathetic eyes.

Adown through the woods came a voice in rollicking song:

"Massar gone away, de darkey say
"Hol' ho!"

"Must be now dat de kingdom's comin' 'T de year ob jubilee."

"That's Bill, pup," laughed Boy. "He always sings when he's washin' his breakfast dishes. Come on, let's go over and borrow his pitchfork. You and me have got to dig tater's today."

A few hundred yards further on they found the singer. He was clad in Bushwhacker buckskins from head to foot.

"Hello, Boy, how's your ma?" he called as he caught sight of the visitors.

"Just about the same, I guess," Boy answered. "Nobody up when I left, so I can't just say how ma spent the night. Want to borrow your fork, Bill?"

"Take it an' anything else you see as you'd like. Say, won't you step in the house and have a cup of tea?" "I ain't much on tea drinkin' as you know, Bill, and I must be hittin' the trail back soon, 'cause we want to get the taters dug before night."

"All right, as soon as I put these dishes away I'll get you the fork." Boy's eyes followed his friend sympathetically, and when Paisley rejoined him he asked indignantly:

"Say, Bill, why do you live alone here like you do? Ain't it lonesome for you?"

"Some." Paisley dried his hands on a towel and sat down on a stump. "It's some lonesome; yes. But I've sort of got used to it you see."

Boy seated himself on a log and leaned back, nursing his knee in his hands. "How about Mary Ann?" he asked. Bill shook his head.

"Too good and too young for me, Boy. She don't just think me her style I guess. That young teacher chap, now, he is just about Mary Ann's style."

Boy's eyes narrowed. "He's just about Gloss's style, too," he said slowly. "He's some different from us bush-fellers, is Mr. Simpson?"

"I don't take to him very well myself," said Paisley, looking away, "but of course, Mary Ann's bound to see him a lot, him boardin' at her mother's, and maybe he'll see as he can afford to miss gettin' a girl like Mary Ann, pervidin' she's willin'."

"How many times have you asked her, Bill?"

"Twice a year—every spring and fall, for the past three years."

Paisley laughed queerly and stooped down to pat the setter's shaggy sides.

"Boy," he said, "don't ever get carin' for a woman; it's some hell."

Boy leaned back with a deep breath. His eyes were on a tiny wreath of smoke drifting between the tree-tops and the sky.

"I ask her twice a year regular," went on Paisley. "It's got to be a

custom now. It'll soon be time to ask her again."

A yellow-hammer swooped across the open and, alighting on a decayed stump, began to grub out a breakfast. He was a gay, mottled-breasted chap, with a dash of crimson on his head. The drab-colored thrush that had been preening himself on a branch of a nearby tree ruffled his feathers and flew further back into the bush. Boy frowned at the intruder and arose slowly from his log. He glanced up to find Paisley looking at him.

"Something's wrong with you, Boy," said the man; "what is it?"

"I was watchin' them birds," Boy answered. "You saw what the big, greedy chap did to the thrush—he drove him away; and it made me think of what Hallibur and his agents are tryin' to do with us Bushwhackers."

"They can't do it," cried Paisley, "just let 'em try it."

"Hallibur threatens that he'll own all this part of the country. He's too much of a coward to come over and try to get it himself, but he's tryin' to get it through others, as you know."

(To be continued.)

Motorists and Pedestrians.

"The time is not far distant," said an elderly citizen of Toronto, the other day, "I may not live to see it, perhaps, but some of you will, when every pedestrian in the city will be forced to wear a red electric bulb in his necktie and carry a red lantern swinging to his coat-tails behind."

As the reader will readily infer, this elderly gentleman was, at the moment, somewhat incensed at the argument of motorists that pedestrians ought to be compelled to keep out of the way of motor cars.—Toronto Star.

ECZEMA You are not alone in suffering from this skin disease. It is a common ailment, and one that can be cured. The only reliable remedy is the one that has been used for over 50 years. It is the only one that has been used by the most famous physicians of the world. It is the only one that has been used by the most famous surgeons of the world. It is the only one that has been used by the most famous scientists of the world. It is the only one that has been used by the most famous statesmen of the world. It is the only one that has been used by the most famous philosophers of the world. It is the only one that has been used by the most famous poets of the world. It is the only one that has been used by the most famous writers of the world. It is the only one that has been used by the most famous artists of the world. It is the only one that has been used by the most famous musicians of the world. It is the only one that has been used by the most famous actors of the world. It is the only one that has been used by the most famous actresses of the world. It is the only one that has been used by the most famous comedians of the world. NORRIS SECURES LARGEST VOTE IN MANITOBA

Farmers and Independents May Organize Into Single Group

Winnipeg.—The results of the Manitoba elections would indicate that the large single group which will sit in the next legislature will be the followers of the Norris Government. With two deferred elections, the Fox and Rupert's Land, and the results of the proportional representation vote in Winnipeg not yet announced, the standing is as follows: Government, 17 seats; Farmers, 9 seats; Labor, 7 seats; Conservatives, 6 seats; Independents, 4 seats.

The presence in the field of numerous farmers and independents, provided the three-cornered and, in some cases, four-cornered contests, which upset the calculations of the experts. It is regarded as certain that in essentials of his policy, Premier Norris could count upon the support of a considerable number of those candidates who were elected, and political statisticians are inclined to think that an agreement upon the various minority groups to support the government is not among the probabilities.

Labor will present the second strongest group in next legislature, outnumbering the Conservatives, who, according to latest returns, have lost their leader, R. G. Willis, in Turtle Mountain. Apparently it is possible for the independents and farmers who will have seats in the house, to organize into a distinct group, which would be able to hold the balance of power, but in this connection, it is claimed by the Liberals, that at least three men in this number, Little, of Beautiful Plains; McKinnel, of Rockwood, and Emmond, of Swan River, are counted upon to give the Norris government a general support.

The Manitoba legislature normally meets in January, and it is pointed out that, lacking intervention by the lieutenant-governor, there is no reason why the government should not carry on in the meantime and, when the house is in session, settle its immediate fate by a vote of confidence. Doubtless the interval would be marked by nothing which might be expected to result in a definite alignment of the smaller groups for offense and defence. The strategic position of the Norris forces is strengthened, it is pointed out, by the fact that all the members of the government were elected. One cabinet seat is vacant, through the recent death of the minister of agriculture.

Many Harvesters Needed

Planning Ways and Means to Secure 50,000 Men to Garner Crop

Winnipeg.—Fifty thousand farm laborers will be required to harvest the 1920 crop of the prairie provinces, it was elicited by J. A. Bowman, provincial commissioner of colonization. He estimated that Manitoba required 15,000; Saskatchewan, 20,000 and Alberta, 15,000.

On July 10 railway officials and members of the immigration and colonization will meet to discuss matters for the importations of these laborers.

H. B. Appointment

Montreal.—The Hudson's Bay company has announced the appointment of H. F. Harman to the position of joint commissioner of the company, with headquarters at Winnipeg, vice James Thomson, resigned.

Grain Growers to Hold Conferences

Meetings Will Be Addressed by J. A. Maharg, M.P., and J. B. Musselman

Regina.—An important series of Grain Growers' meetings has been scheduled for district No. 2, which will be addressed by J. A. Maharg, M.P., and J. B. Musselman. The first will be held at Willow's on Tuesday, July 20, commencing at 2 o'clock. Another meeting will be held in the evening at the village of Willow Bunch, commencing at 7.30.

On the following day, Wednesday, July 21, there will be a conference of all the locals of the district who are interested, to discuss the proposed routes for the extension of the Canadian National railway from Bengough; which will be followed by a public meeting the same evening, which will also be addressed by J. A. Maharg and J. B. Musselman.

Link Up Empire by Wireless

Imperial Telegraphy Committee Urges Establishment of Big System

London.—The Imperial wireless telegraphy committee recommends the establishment of a system of wireless throughout the Empire. Two wireless chains are outlined in the report, one to Australia with intermediate stations. A similar communication with Canada must be established but this can only be done after the conference has estimated the cost, which will be about one million and a quarter pounds. Marconi proposals were rejected chiefly on account of the prohibitive cost and as creating undesirable monopoly.

Sinn Fein Delegates Visit Vatican. Rome.—Sean O'Ceallaigh, diplomatic delegate extraordinary of the government of the Irish "republic," was received in private audience by Pope Benedict.

It was authoritatively stated that O'Ceallaigh was received by the pontiff only in his private capacity. O'Ceallaigh approved this statement, saying he had no wish to embarrass the Vatican.

Big Wheat Exports

Chicago.—Four million bushels of wheat were exported from Chicago to Europe by lake routes in the last two months, Wm. H. Clair, collector of customs has announced. This was eight times as many bushels as were exported direct last year, the announcement said. Strikes and shortage of railroad cars were given as reasons for the large boat shipments.

Not in Effect Yet

Montreal.—Word was received here by the Canadian Manufacturers' Association that on information from the department of finance at Ottawa, the stamp tax on promissory notes, bills of exchange, bank overdrafts, and on transfers of stock will not come into effect until the bill now before parliament has been assented to.

Riots in Shanghai

Shanghai.—Labor disorders and strikes are spreading with incipient rioting and looting of food shops in the industrial districts due to the price of rice having mounted to \$15.20 a peul (a peul approximates 140 pounds). It is estimated that there is only a four-day supply of rice available.

Ambassador to Germany

London.—Lord Abernethy, well known as a financier and chairman of the central board of control of liquor traffic, has accepted the ambassadorship to Germany, it has been announced.

MAIN NAVAL ESTIMATES ARE FINALLY PASSED

Hon. Arthur Meighen and Dr. Michael Clark Cross Swords

Ottawa.—The main naval estimate of \$300,000, together with the supplementary vote of \$1,700,000, were passed in the house of commons.

In reply to a question and after Sir Robert Borden had undertaken to table the navy correspondence, unless it was of a confidential character, Hon. C. C. Ballantyne said there was only one cablegram which said that Canada could not accept all the ships Great Britain offered.

Hon. Arthur Meighen crossed swords with Dr. Michael Clark on the former's speech to the effect that the Liberal party had ridiculed the German menace in 1909, and although this has passed away the British empire is still compelled to guard against possible foes. Dr. Clark asked if Mr. Meighen foresaw the general menace when he joined forces with Bourassa to scrap Canada's naval policy. He asked how Canadian trade routes were to be protected with five warships.

Mr. Mackenzie King threatened to stand in the way of prosecuting unless the house adjourned after adopting the naval estimates, according to the agreement which he claimed had been arrived at. Hon. Jacques Bureau said there had been an obvious misunderstanding between the two leaders and suggested a compromise by passing one estimate then and leave the other over. This was finally agreed to and the house adjourned.

For Imperial Veterans

Organizing in Interests of Imperial Men Taking Up Residence Here

Ottawa.—A complete ocean-to-ocean organization to care for the discharged soldiers of the British army who have taken up residence in Canada is being planned by the Imperial Veterans' Association of Canada. Major T. B. Thomas of Vancouver, Dominion president and organizer, and James C. Berg, of Winnipeg, Dominion solicitor of the imperial veterans, are in Ottawa and will confer with the federal cabinet before going east to organize branches.

Major Thomas said his association was growing with every boot drawn from the old country and that the organization planned to solve the problems of the imperial soldier wherever possible.

Await Spa Conference

London.—Premier Lloyd George has stated in the house that he did not propose to make a further statement on the Boulogne conference until after the meeting at Spa had been held.

Answering six questions about Mesopotamia, the premier said consideration must be given to rights existing before the war, and the interests of the Arab states must be safeguarded.

Italy Not Sending Troops to Albania

Rome.—During a debate on the Albanian situation in the chamber, Socialists demanded withdrawal of Italian troops. Premier Giolitti, in replying, said that the government were not sending troops to Albania and reminded the chamber that when he was last premier he had urged that Albania ought to be completely independent and had done his best to secure the formation of a stable government.

Big Riot Damage

Fermoy, County Cork.—Damage amounting to hundreds of pounds were caused by rioters and wild smashers here. The inhabitants attribute the demonstration to soldiers who left their barracks on hearing of the kidnapping of Brig-General Lucas. Attempts to burn houses were frustrated.

W. N. U. 1323

Trainmen Refuse To Carry Soldiers

Government is Taking Over Railways in Ireland

Dublin.—Newbridge, County Kildare, is the great military centre serving Curragh, the Aldershot of Ireland, and it was sought to dispatch soldiers thence by a train passing from Kilkenny to Dublin.

The driver refused to carry them and the soldiers remained on the train. Subsequently trains from Athlone and Thurles and Dublin were similarly boarded by soldiers and blocked. The stranded passengers drove to Kildare to catch the through train not stopping at Newbridge. The soldiers have orders to board any train available, so the situation cannot be relieved by the despatch of trains from Dublin. The government has had offers of a score of men from Belfast to operate the trains but has not accepted them. The situation is declared to be serious. The government is taking over the trains and entering upon a general conflict should the drivers persist in refusing to move troops on trains.

Russian Reply Unsatisfactory

Soviet's Attitude Toward Foreign Debt Unacceptable

London.—Krasin, Russian Soviet minister of trade and commerce, had a conference with Premier Lloyd George at the premier's office. The meeting lasted for an hour.

The object of Krasin's visit to the Premier was to submit to him Moscow's reply concerning the Soviet's attitude toward the foreign debt and private property of foreigners expropriated by the Russian government.

It is said that the reply was unsatisfactory, but that negotiations would be continued.

Southern China Seizes Fortress

Honolulu.—Troops of south China have captured Yuan Chow, a stronghold of the north China forces after several days of severe fighting, according to a special cable from Tokio.

News of the Provinces

SASKATCHEWAN

The Mennonite Exodus Swift Current.—While it is expected that a number of Mennonites will depart shortly for the southern States, no general exodus is anticipated, and it is considered probable that the majority of the colony will remain to obey the school laws of the province.

Leaves Saskatoon

Saskatoon.—J. T. Hall, for the last few years editor of the Saskatoon Phoenix, is retiring from that position to become editor of the Grain Growers' Guide at Winnipeg.

Visiting Rural Districts

Regina.—Hon. George Langley, minister of municipal affairs, is visiting several points in the province, addressing a series of public meetings dealing with the work of the different departments and explaining recent enactments.

MANITOBA

Farmers Anticipating Election Winnipeg.—Organization of the farmers of Canada for the next federal election is to be discussed at a meeting in Winnipeg on July 12 of a special committee of the Canadian council of agriculture.

ALBERTA

To Probe Freight Rates on Coal Edmonton.—E. Drummond, manager of the Mountain Park coal company, is leaving for Toronto and Ottawa as a commissioner from the Alberta Government and the coal operators' association, to investigate the question of freight rates on coal from Alberta to the eastern markets. His mission is being undertaken at the request also, of the Canadian Manufacturers' association, the coal mining branch of which has been taking an active interest in the possible shipment of western coal to Ontario.

DEBATE OVER FRANCHISE BILL IN HOUSE

Third Reading Carried After Amendments by Majority of Twenty-Six

Ottawa.—The franchise bill which has occupied the house of commons for a large part of the present session, was passed after several amendments had been adopted. There were several divisions and a brief debate on the opposition amendment which sought to compel newspapers to print the name of advertisers paying for matter published in support of political parties.

Third reading of the bill was finally passed by a majority of 26 after an amendment proposed by A. R. McMaster was defeated by a vote of 86 to 60. Hon. W. A. Buchanan, Lethbridge, and F. L. Davis, Neepawa, voted against the government in support of the amendment. The Farmers' party voted against the government.

Mr. McMaster proposed that election advertisements in any form bear the name of the person or organization paying for the advertisement.

Hon. Hugh Guthrie said that evils of election advertisements through public journals were greatly exaggerated. It would be more to the point if newspaper articles bear the signature of the writer.

Hon. W. L. Mackenzie King said that the important thing, was that powerful interests be prevented from backing a political party without the knowledge of the public.

Hon. W. S. Fielding had an amendment to refer the bill back to committee with instructions to provide that where there were two or more constituencies vacant, by-elections be held on one day. The house declined on the amendment. It was defeated by 77 to 58—a government majority of 19.

BRITISH COLUMBIA

To Tow Rafts to Europe Victoria, B. C.—Swedish lumbermen have been on the coast and successfully investigated the possibility of rafting lumber from British Columbia to Europe. Rafts of large size, called rafanutes, have been successfully towed from Sweden to Great Britain. It is believed that the huge timbers of the province will become the construction and successful operation of rafanutes larger than those shipped out of the Baltic, which contain four or five million feet each. The rafts leaving the Pacific Coast will probably contain from 15 to 20 million feet.

Vancouver, B. C.—The Rat Portage Company has sold timber limits containing fire and some cedar on the southwest of Vancouver Island to John W. Blodgett of Grand Rapids, Michigan, for \$400,000. A mill will be erected on the property.

Fruit Shipments to British Increase

Sicamous, B. C.—Apple shipments from the Okanagan Valley to Great Britain during the past season amounted to 320 carloads as compared with only 85 in the best previous year. Inquiries indicate that shipments to Great Britain during the coming year will greatly exceed even this enviable record. Several large British buyers are on their way to British Columbia, including the representatives of both the English and Scottish Co-operative Societies, who have not previously been interested in the Pacific coast orchard products.

Board of Trade Gathering

Invermere, B. C.—At a meeting of seventy representatives of Boards of Trade from Golden, Windermere, Fort Steele, Cranbrook, Fernie and Creston, the Associated Boards of South Eastern British Columbia was formed for the purpose of promoting the interests of the combined districts.

SALESMAN

Of ability and good local connections—preferably a tailor or clothing man

Can Earn Big Money

Selling Men's Made-to-Measure Clothes in his locality. Style, quality and value of garments known from Ocean to Ocean. Address—in first instance—with full information to F.O. Box 105, Montreal.

Natural Resources Of Western Canada Of Untold Value

Sir John Willison, in a speech delivered before the Canadian Club at Halifax, and dealing with the financial outlook for Canada, gave some interesting facts and figures regarding the potential wealth of this Dominion. Speaking particularly of the undeveloped wealth of the western provinces he said in part:

It is established that in Saskatchewan there is clay for earthenware which would afford the raw material for pottery industries. Indeed, according to one of the provincial ministers a company is now producing "first class articles of clay manufacture." A discovery of white clay near James Bay is reported, which with large deposits of felspar make it possible for Ontario to manufacture optical glass, fine china and ornamental glassware. But we should have greater knowledge of these clays and that we can only acquire by scientific and industrial research. There is no doubt that the return from the fisheries could be enormously increased. The council for scientific and industrial research estimates the loss in solids, comprising chiefly fat and proteins, in the 300,000 tons of waste that is thrown away annually, at \$10,000,000 and in oil at \$2,000,000. These discoveries alone increase the value of the fisheries by 25 per cent. The council is engaged in experiments to determine the commercial feasibility of utilizing as fuel the lignite deposits of the prairie provinces. If these experiments are successful, as they promise to be, not only will industrial development follow, but an annual saving of \$18,000,000 involving at the present value of the dollar, a loss on exchange of \$17,500,000 will be effected through the substitution of lignite for coal now imported into Western Canada. There are 57,000,000 tons of lignites in Saskatchewan and even a greater quantity of the better grade of this grade in Alberta. Furthermore, too, utilization of valuable by-products will provide raw materials for native industries, and in these provinces not so well supplied with water powers as the other provinces of the Dominion the vast stores of energy locked up in these lignites will be made available for industrial and agricultural purposes.

One cannot believe that the West with a coal production now greater than that of the Atlantic coast will continue to import coal from

Pennsylvania. Alberta alone has 16 per cent of the world's total coal supply. Industries in Winnipeg have discovered that coal from Alberta is a satisfactory substitute for the imported product. It is certain that western coal will also be utilized for domestic purposes.

Experiments in wheat breeding produced Marquis wheat, the staple wheat of the west, and now the research council is trying to discover a variety of wheat which will ripen early, be wholly rust-resistant, and have good milling and baking qualities. A new process of making brome twine out of flax straw in Saskatchewan has been discovered from which it is believed a great industry will develop and a substantial monetary saving to western farmers be effected. The research council is seeking to discover a method of utilizing the thousands of tons of waste straw which from year to year are burned in the prairie provinces. The fact that we import iron and steel to the value of \$15,400,000 should stimulate exploration and research in Canada. Ores which had practically no commercial value 20 years ago are now in high demand. It cannot be doubted that we will develop mines in Canada or methods of treatment which will in degree lessen our dependence upon foreign supplies. The natural resources branch of the department of the interior has just issued a memorandum on the subject of molybdenum. This steel is claimed to be the lightest and strongest that has yet been produced. It is said there are over 100 known sources of molybdenum in the Dominion, some of which have proved very productive. One mine in 1915-17 produced more than any other individual mine in the world. In 1918 the total production in Canada was 189,000 tons which was one-third of the world's production. And it is stated that Canada is in the most favorable position in the empire to supply this metal. In remote northern Manitoba, beyond the Saskatchewan and north of the inland seas of the province, in 1919 copper and gold ores "though the surface has hardly been scratched" were produced to the value of \$694,633, timber was cut to the value of \$163,000 and furs were taken to the value of \$1,867,000. One particular property in this territory is said to contain 20,000,000 tons of copper ore valued at \$180,000,000.

The Place to Go Where Fishing Abounds

Alberta Fishing Streams Are to Be Restocked by Government

That Alberta streams have the finest fishing from a sportsman's point of view in Canada, is the opinion expressed by G. S. Davidson, chief inspector of fisheries for the western provinces and the northwest territories.

"It is the policy of the fisheries department," said Mr. Davidson, "to close all small streams, which are the spawning ground of most of the game fish, for two years, and to make every effort to restock them and bring them to their former standing, and I have the assurance of the department of fish culture, that everything possible will be done in the matter of restocking the streams."

"Alberta will soon be the greatest fishing country in Canada," said Mr. Davidson, "the north country streams and lakes are fairly alive with fish. An application is now before the department for the granting of a license to a Canadian concern for the fishery rights in the Athabasca district, which is being looked into. The applicants for the fishing rights state they will can and export over 70,000 pounds of fish daily to the Canadian markets."

Whenever a large town in the British Isles changes its source of water supply, a sample is taken by the townsmen in order that the right blend of tea may be made to suit that particular water.

Some Facts About The Far North

Stefansson Deplores Lack of Knowledge of Canadian People Regarding North

Lamentable ignorance on the part of Canada people regarding conditions in the far north is due to the teaching on the subject in Canadian schools, according to Vilhjalmur Stefansson, the noted explorer, says the Winnipeg Free Press.

These wrong impressions received in childhood are very hard to uproot, he pointed out.

There are 640 different species of flowering plants, and roughly three times as many flowering plants as non-flowering plants in the Arctic country, according to Mr. Stefansson. In the north, he explained, there are two seasons similar to the seasons of the settled part of Canada.

Just as grass cannot grow here in the winter time, the grass cannot grow in the country around and north of the Arctic circle in the winter. But in the summer time, one can find Kentucky blue grass, which is the most prevalent among the vegetation up there, golden rod, poppies, blue-bells, dandelions, timothy and watercress, "and these plants grow as far north as any land that has been discovered," added Mr. Stefansson.

Mr. Stefansson predicted that the northland would be developed in the same way as other countries. He explained that there are rich resources up there, and when asked if the climate would act as a deterrent, he replied: "A land is measured by its productivity and not by its climate, and if a land is productive, it will be developed irrespective of its climate." Mr. Stefansson stated that he expected to set forth in his fourth venture in the Arctic circle at no very distant date. He is at present engaged on the completion of a book concerning his last five years in the Arctic, between 1913 and 1918, and said that this would be published in the fall.

Alberta Coal On Winnipeg Market

Summer Shipment of Coal to Storage Will Permit of Continuous Operation of Mines

This summer an attempt on a large scale is to be made to place Alberta coal on the Winnipeg market. Difficulty has been experienced in this market extension work by the lack of storage capacity in Winnipeg, and the unwillingness of the consumer to purchase his coal during the summer, when it could be delivered direct from the cars. To overcome this objection to early ordering, storage sheds, with a capacity of 20,000 tons, are being erected. These sheds will permit the shipping of Alberta coal to Winnipeg during the slack season and storing it against the rush period. This will have a two-fold effect. First, it will relieve the traffic congestion of the autumn, when the railways are handling the grain traffic. Secondly, it will permit the operation of the mines during a period when, owing to the absence of a market for the output they were ordinarily compelled to close down with a reduced staff. This latter difficulty has had rather a widespread effect, and has militated against the ability of Alberta coal to meet competition. With the closing down of the mines for a portion of the year, the overhead charges of the entire year have had to be absorbed by the period during which the mines were operating, thus increasing cost of production to a considerable extent. The enforced idleness of the miners also had an unsettling effect, and created difficulty in securing and retaining efficient operatives.

This new enterprise of Alberta coal mine operators will be watched with interest, and it is hoped that, with successful operation, the partial dependence of the western cities upon United States coal will be materially lessened.

In the far Arctic, summer brings a spell of continual sunshine, heat and myriads of insects, and there, for a matter of ten or twelve weeks, bird life is more plentiful than anywhere else on earth.

W. N. U. 1223

Wheat Board Will Be Reorganized and Given Wider Power

In reference to the continuance of the Canadian wheat board for another session, the resolution provides that the governor-in-council may appoint a board to be designated "The Canadian Wheat Board," which shall consist of not more than twelve members, including chairman and vice-chairman.

The board may make enquiries and investigation as it deems necessary to ascertain what supplies of wheat are, or may be, available from time to time, the location and ownership of same, the transportation and elevator facilities available in connection therewith, as well as all conditions connected with the marketing and market price than can be obtained for the same. For the purpose of any inquiry or investigation held by the board, the board and several members thereof shall have the powers of a commissioner acting under Part I of the Inquiries Act.

In the schedule of powers the board is given authority similar to that at present enjoyed as regards purchase, storage and transport of wheat, and to sell wheat, in excess of domestic requirements to purchasers overseas for such prices as may be obtainable. The resolution gives the board authority to fix maximum prices for wheat, and to sell flour and other products may be sold by millers, and to fix standards for such products.

It may purchase flour from millers at prices to be fixed by the board and sell the same in Canada and other countries. For the purpose of performing its duties the board may allocate Canadian lake tonnage and distribute cars for rail shipments.

The issue of participation certificates and payment of advances is provided for in the resolution, as also is the distribution pro rata after sale of all wheat and deduction of administration expenses.

The board is given power from time to time to appoint an executive committee of not less than three of its members of whom the chairman will be one, and may assign to such executive committee any duties or powers which is within the competence of the board.

It is provided that there shall not be provided on any grain exchange or elsewhere facilities for trading in wheat futures during the time the act based upon these resolutions is in force, except by permission in writing of the board.

Notwithstanding any order-in-council heretofore passed by the board of grain supervisors of Canada shall not hereafter exercise any power inconsistent with the powers vested in the Canadian wheat board by the proposed legislation.

The proposed act shall continue in force until the day immediately succeeding the day of prorogation of the next session of parliament.

Visiting Land in Far North

First Train of Season to Fort McMurray Carries Noted Passengers

Noted soldiers, financiers, big game hunters and globe trotters, as well as men prominent in the north, were passengers on the first train of the season over the Alberta and Greater Waterways railway to Fort McMurray. Among the prominent passengers who are making the trip, most of them going right through to the mouth of the MacKenzie River, some 1,200 miles north Edmonton are: M. Stea, a prominent financier of Belgium; Lt.-Col. Sir Richard Turner, V.C.; D. K. Miller, of Milwaukee, noted globe trotter and big game hunter; George Boucher, of Toronto; H. A. Canham, of Ontario, an Indian agent, who is taking the treaty money to the Indians of that district, and many others. The Northland Echo will meet the train at the end of the steel, and will at once start on its long journey to the MacKenzie River to the land of the midnight sun.

Growth of Dairy Industry

Saskatchewan Dairy Association Is Out After More Members

Creamery patrons throughout the province are being urged by the secretary treasurer of the Saskatchewan Dairy association to join the association and also the national dairy council of Canada. In an effort to increase the membership of the Saskatchewan association circular letters are being sent out all over the province.

The remarkable growth of the dairy industry in the province during the past few years is a matter of record in the government blue books. While there were only 31 creameries in operation in the province in 1917 with 13,420 patrons, last year the figures reached 43 creameries and 26,799 patrons.

It is felt that the progress of dairying would be much enhanced if all these patrons were enrolled in the provincial and dominion organizations.

About Potatoes

The man who raises his own potatoes is the surest of having potatoes to eat the coming winter than is the man who puts in the afternoon in watching the ball games and riding in automobiles.—Ontario Post.

Sodium Sulphate Deposits

Wealthy American Syndicate Making Bid to Secure Valuable Mine

The rich sodium sulphate deposits located south of Croyton, Sask., which were located some time ago, are now to be extensively developed. The Croyton Sodium Sulphate Co., Ltd., has applied for incorporation and it is understood that work on the holdings will commence at once. It is stated that New York capitalists are endeavoring to obtain control of these deposits. The property is valued at \$3,000,000. Should the American syndicate take over the mine, it will be their intention to erect a refining plant. The deposit is said to be the purest sodium sulphate mine in the world. Four or five by-products can be obtained by the refining process.

Canadian Fisheries

People of Canada Should Be Educated to Eat More Fish

The fisheries of Canada represent an asset of \$5,000,000 and are capable of enormous development if the people of Canada could be educated to eat more fish, was a statement made by A. H. Britain, ex-president of the Canadian Fisheries Association and vice-president of the Maritime Fish Corporation, who passed through Winnipeg recently on his way home from the fisheries convention at Vancouver.

Mr. Britain stated that if Canadians could eat more fish that a considerable stride would have been taken to fight the high cost of living. "Fish," he declared, "is the cheapest food in Canada today and only a small percentage of the fish products of Canada are consumed in the Dominion. The majority is sent to the United States, South America, West Indies."

Montreal Ninth City of Continent

Montreal is now the ninth, and Toronto the twelfth city on the American continent, the Canadian cities having passed several of the American cities in the past few years. Here are the populations of the twelve leading cities: New York, 5,621,151; Chicago, 2,701,212; Philadelphia, 1,549,008; Detroit, 993,791; Cleveland, 796,836; St. Louis, 773,000; Boston, 747,633; Baltimore, 733,426; Montreal, 706,959; Pittsburgh, 598,193; Los Angeles, 574,480; Toronto, 515,000.

For Sale.—16 foot Binder (new canvases), 16 in. Sulky Plow, 7 ft. Disc Drill. Phone 32, Crossfield.

Local and General

Owing to the death of Bro. James Laut, Floral Picnic is postponed until further notice.

Crossfield Tent Chautauqua July 26, 27, 28.

Two cases of interest to Crossfield that were tried in June. One, J. L. Gordon vs Hall-McCaskill, tried before Hon. Mr. Justice Walsh. McCaskill leased Gordon's half section in 1918, when lease expired some difficulty arose as to division of grain. Mr. Gordon was forced to take action in Court. Judgment was given for plaintiff with two-thirds of all costs. Valquette and Dingle for Gordon, Plaintiff, Short, Ross and Selwood for McCaskill, Defendant.

The other case was that of Dan Pike vs M. S. Matthews of Sampson. This action arose out of the auction sale of Joe Pike's place in 1919. W. Matthews bought the green feed and paid all but \$200.00. He claimed some of the green feed had been damaged by Pike's horses. Later Joe Pike assigned his claim to Dan Pike who took action, tried before Judge Jackson; judgment has just been given in favor of the plaintiff less a nominal amount allowed for damages. Costs of the action to be paid to Pike by the defendant. Valquette and Dingle for Pike plaintiff, Gilchrist and Brady for Matthews defendant.

Union Sunday School Picnic

The Union Church Sunday School Picnic held at Mr. W. D. Fraser's farm, on Tuesday afternoon of this week was a very enjoyable affair. The Crossfield and Inverlea people joined in putting on a splendid list of games and sports. The spot selected was ideal for an afternoon's enjoyment and the kindness of Mr. and Mrs. Fraser was much appreciated for their invitation to hold the picnic on their grounds. Free ice-cream was provided for the members of both Crossfield and Inverlea Sunday School, while the ladies of both congregations provided a splendid picnic supper for all who attended. A collection taken up in the afternoon more than covered all expenses of prizes, ice cream, lemonade, and everyone joined in declaring it a very pleasant outing. The hearty co-operation and goodwill of both churches was remarked on.

The prize winners were, Boys and Girls Races:—
Girls Race age 4 to 6 May Stauffer
" " " 6 to 8 M. Murdoch
" " " 12 and over Ina Fraser
Boys Races 4 to 6 J. Jessiman
